MEMORANDUM FOR

Chief of Staff, FORSCOM Installations
Chief of Staff, CONUSA
Chief of Staff, USARC
Chief of Staff, United States Army Signal Command
Chief of Staff, Major FORSCOM Troop Units on Non-FORSCOM Installations

SUBJECT: Risk Reduction Program

1. The RRP is a tool to assist commanders in reducing the negative impact of high-risk behaviors (risk factors) on unit readiness. It employs the concept of Safety Risk Management, adapted to provide commanders with a consolidated analysis of their unit's high-risk behaviors, consultation with recommendations on interventions to reduce the risks, and a high-risk behavior prevention strategy.
2. The RRP employs the concept of safety risk management adapted to provide commanders with a consolidated analysis of their unit's high risk behaviors, consultation with recommendations on interventions to reduce the risks, and a high risk behavior prevention strategy. Risk factor data to support the RRP is available from existing installation sources.
3. Effective 1 October 2002, it is mandatory for all FORSCOM major subordinate commands to implement a Risk Reduction Program for their command. A FORSCOM Regulation for the Risk Reduction Program will be published in conjunction with this requirement. Risk Reduction Program training will be conducted prior to the FORSCOM-wide implementation of the program.
4. Forces Command is committed to ensuring command readiness for all units and quality of life for all soldiers and Department of the Army civilians. All FORSCOM installations are encouraged to implement and actively support the RRP to reduce personnel loss and sustain individual readiness.

FOR THE COMMANDER:

*Jeannettes,
Formalizes
CG guidance from
Safety Council Mtg*

JAMES E. DONALD
Major General, USA
Deputy Chief of Staff, G1
